RESUME

Vaishnavi Ganesh Ingole

Contact No: +91 9356822660 **Email:** vaishnaviingole340@gmail.com **LinkedIn:** https://www.linkedin.com/in/vaishnav1783ba260

Profile Summary

DevOps Engineer with hands-on experience in building and managing CI/CD pipelines using Jenkins and Docker. Proficient in Linux administration, containerization, and cloud platforms such as AWS and Azure. Skilled in troubleshooting, automation, and optimizing deployment workflows. Committed to delivering efficient and scalable infrastructure solutions.

Education

B.Tech (Electronics & Computer Engg.)	MIT College, Chhatrapati Sambhajinagar	8.04
HSC (State Board)	BNB College, Digras Yavatmal	86.67%
SSC (State Board)	Rastriya Vidyalaya, Digras, Yavatmal	80.00%

Work Experience

Vtelebyte: Sanjeev Group Pvt. Ltd | DevOps Intern | 20 Jan 2025 –20 July 2025

Implemented CI/CD pipelines using Jenkins, Docker, and GitHub Actions. Built and managed Docker-based containerized environments.

Automated build and deployment processes. Monitored and resolved pipeline and deployment issues

Worked on Linux systems for application deployment Used Git and GitHub for version control

Projects

1. Library Management (*Tools: frontend: React, Backend: Node, Database: MongoDB, CI/CD, Docker, Jenkins GitHub***)**

• Developed and deployed a .NET-based Library Management System using Docker and Jenkins CI/CD.

• Automated build and deployment workflows, integrated GitHub for version control.

• configured containerized application deployment on Ubuntu Linux to ensure consistent and reliable delivery.

2. Expense Tracker (*Tools: frontend: React, Backend: Node, Database: MongoDB***)**

• Developed a user-friendly interface to log, categorize, and track daily expenses and income sources.

• Implemented budget-setting features with category-wise limits and real-time alert notifications.

• Performed testing and bug fixing to improve performance

Certifications

1. Red Hat Certified System Administrator (RHCSA), Certification I'd: 240-163-9072

2. OCI Foundations Associate (2025)

3. Red Hat Certified Specialist in OpenShift AI Certification I'd: 240-201-145

Technical Skills

- Operating Systems: Windows, Linux, Ubuntu, RedHat Linux
- Networking: Subnetting, CIDR, VPC, Routing Tables, NAT Gateway, Security Groups, Firewalls, SSH, TCP/IP
- Cloud & Security: AWS, Oracle, IAM Roles, EC2, EBS, S3, ECS, Least Privilege, Secrets Management, KMS, TLS/SSL, Backup and Recovery
- CICD Pipelines: Jenkinsfile, Pipeline as Code, Webhooks, Build Automation, Deployment Automation
- Scripting & Automation: Bash Automation, Python Automation, YAML, JSON,
- Language: HTML, CSS, C#, JavaScript, SDLC & Software Testing, Entity Framework
- Deployment & Web Server: NGINX, Database (MySQL/SQL), Supabase, Reverse Proxy, HTTPS Configuration, DNS Configuration

- Monitoring & Logging: Log Analysis, Alerting, FTP issues, CloudWatch, Prometheus, Grafana
- Containerization: Docker Images, Volumes, Networks, Container Registry, Multi-stage Builds, Docker Compose
- Container Orchestration: Kubernetes (K8s), Pods, Deployments, Services, ConfigMaps, Secrets.
- Version Control: Git Branching, Merging, Pull Requests, Conflict Resolution
- Linux Administration: Users and Groups, File Permissions, systemd, Process Management, Cron Jobs, Disk Management
- Configuration Management: Ansible Playbooks, Inventory, Roles
- Infrastructure as Code (IaC): Terraform, AWS CloudFormation
